Different in sound and mood, these tracks were put together to satisfy the most exacting robot's hunger. We start our therapy with St. Petersburg-based RAIN, a new artist on RT. Simple and elegant electro sound, bright melodies to warm you up in the beginning of the session. Next is Neonicle - 'northern' capital electro punk. A bit of psychedelia and a drop of noise for you here. His album is coming out on RT in February and is gonna be a f####ing awesome! Moving further - 2 tracks from Vadz. More dirt, static electricity, and images of distant worlds. Just add more volts if you feel sad! Thorn MD hails from Moscow. He's a doctor at the ICU in regular life and this is his first appearance at RT. 2 pieces of dark electro with sci-fi elements and dim voices end up our therapy session today. Thanks everyone, hope our treatment made no harm to you!
